# Okinawa Universal Tourism

Aiming to be a welcoming destination where everyone can enjoy with peace of mind

Located in the southern seas of Japan and consisting of numerous islands, Okinawa Prefecture is rich in history as the former Ryukyu Kingdom, known for its role as a hub of trade with various countries. Today, it serves as Japan's gateway to China and Southeast Asia, attracting many tourists domestically and internationally as a popular resort destination.

The charm of Okinawa Prefecture includes its crystal-clear seas, unique natural environments registered as World Natural Heritage sites, its history dating back to the Ryukyu Dynasty, distinctive Okinawan culture, and local gourmet cuisine. To ensure that Okinawa's attractions are accessible to everyone — including elderly individuals, those with disabilities, pregnant women, families with young children, and international visitors — efforts have been made to create a welcoming environment under the concept of "a destination where everyone can enjoy with peace of mind."

In this guidebook, we have compiled various barrier-free information to help you enjoy your trip to Okinawa. We hope that you will discover and experience the charms of Okinawa for yourselves.

# Tourism Barrier-Free Declaration

1. We commit to removing all barriers to enjoying Okinawa's attractions such as its beautiful seas, rich natural environment, and unique culture. This includes physical barriers to mobility, informational barriers, language barriers, and emotional barriers, ensuring that everyone can enjoy these attractions anytime.
2. We strive to deepen our understanding of various barriers and collectively brainstorm effective ways to eliminate them.
3. We pledge to work together with not only governmental and tourism stakeholders but also all residents of the prefecture to systematically dismantle barriers one by one, starting with what each of us can do.
